TALON[®]

Cockroach Killer Gel

ACTIVE CONSTITUENT: 6g/kg INDOXACARB

Kills American, German and other cockroaches in days
Treats cockroaches you can see and the ones you can't
Easy to apply
For domestic use

5 g or 2 x 5g NET

Contains one 5g syringe,
OR
Contains two 5g syringes,

which it is illegal to sell separately

DO NOT destroy blister pack while product remains
Retain packaging for instructions

IF IT'S **SELLEYS** IT WORKS[®]

HOW TO USE

1. Remove cap from the end of the syringe and touch the nozzle on the surface. Lightly depress the plunger to begin dispensing gel.
2. Apply 2 to 5 spots of 5mm diameter per square metre. Use the higher rate for heavier infestations or if specifically treating American Cockroaches.
3. Apply in areas not able to be contacted by children or pets.
4. Replace cap after use.
5. Inspect treatments periodically for consumption and re-apply as necessary.

Situation	Pest
Domestic situations including homes, kitchens, offices, store rooms, and transportation equipment such as vehicles and boats	American Cockroach (<i>Periplaneta Americana</i>), German Cockroach (<i>Blattella germanica</i>), other common cockroaches

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED

GENERAL INSTRUCTIONS

TALON COCKROACH KILLER is designed to control pest species of cockroaches, including American and German.

The slight delay in mortality caused by the active ingredient, indoxacarb, allows cockroaches to transfer the bait to other colony members before dying.

Use Instructions

TALON COCKROACH KILLER should be applied to areas frequented by cockroaches such as between equipment and floors, openings leading into voids and hollow spaces in floors, walls, ceilings, equipment legs and bases, around plumbing pipes, doors and windows, and behind and under appliances, cabinets, sinks, closets and any other areas that cockroaches are typically known to hide.

Surfaces treated with TALON COCKROACH KILLER should not be treated with residual sprays.

REAPPLICATION intervals will vary depending on feeding intensity.

CAUTION

DO NOT apply to surfaces that food contacts.

DO NOT allow open foods to contact gel material.

DO NOT apply to surfaces where temperatures exceed 50°C, eg parts of stoves, as gel may liquefy and lose performance.

DO NOT apply this product in any areas easily accessible to children or animals.

DO NOT allow chemical containers or gel to get into drains, sewers, streams or ponds.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, dry place out of the reach of children. DO NOT store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in the garbage.

SAFETY DIRECTIONS

Wash hands after use.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone 131 126.
